Artificial intelligence

IESE Business School Insight 150

September 1, 2018

Will artificial intelligence force us to rethink business in the decades to come, or will it fall short of all the hype? Here, a look at what executives need to know. IESE's Javier Zamora explain a primer of AI concepts. Interviews with IBM's Darío Gil, MIT's Thomas W. Malone and the director of strategy and operations of the International Audit Vice Presidency at the World Bank Group Yuko Keicho. Where do women lead? A road map for successful strategy execution. How design can boost social impact and business results. 5 ways managers can enhance their mediating skills. The art of work.
