

How to get in the swing of the circular economy

The circular economy requires consuming less and reusing more, going beyond a product's first lifecycle to create a more sustainable model.

January 1, 2021

In developing the circular economy, governments, companies and consumers are using

innovation and strategic thinking to reclaim products' value beyond a first lifecycle. In this [report from the CaixaBank Chair of Sustainability and Social Impact](#), [Joan Fontrodona](#) and Philip Muller provide an introduction to the circular economy's basic concepts.

Here, [the 9Rs of the circular economy](#): refuse, rethink, reduce, reuse, repair, refurbish, remanufacture, repurpose and recycle.
