

# How do I know if I'm a close **contact**?

You're considered a close contact if you've interacted with a person who's tested positive for COVID-19:

**Without a mask.**

**1**

**2**

**From less than 2 meters away.**

**For more than 15 minutes.**

**3**

At IESE, we'll trace **close contacts** in a positive COVID-19 case and let you know how to proceed.

**#IESEsafe**
