# Rescoop Qui som?

---

# REScoop.eu is the European federation of citizen energy cooperatives.

We are a growing network of 1.900 European energy cooperatives and their 1.250.000 citizens who are active in the energy transition.

## The REScoop model

REScoops are energy cooperatives, a business model where citizens jointly own and democratically control an enterprise that works on renewable energy or energy efficiency projects. We also refer to REScoops as citizen or renewable energy communities.

## The REScoop Model

1. Voluntary and Open Membership
2. Democratic Member Control
3. Economic Participation through Direct Ownership
4. Autonomy and Independence
5. Education, Training and Information
6. Cooperation among Cooperatives
7. Concern for Community

## Middelgrunden

## Fundada any 2000

This project is an example for [community wind energy](#). It is 50% owned by the 10,000 investors in the *Middelgrunden Wind Turbine Cooperative*, and 50% by the municipal utility company.<sup>[3]</sup> It is clearly visible from the capital of Denmark.

## Qu'est-ce que Seacoop?

SeaCoop est la communauté d'énergie renouvelable belge créée par 34 coopératives citoyennes en énergie renouvelable, toutes membres des fédérations REScoop Wallonie et REScoop Vlaanderen.
